

Mid-Atlantic Composting Directory

*Authored by Gregory K. Evanylo, Extension Specialist, School of Plant and Environmental Sciences, and
Kathryn C. Haering, Research Associate, School of Plant and Environmental Sciences*

Introduction

This directory is intended to provide contact information for compost producers, suppliers, and service providers in Delaware, Maryland, and Virginia, along with sources for information and education. Every attempt has been made to present accurate information. Contents are for informational purposes only and are based on details provided by the organizations and entities listed. Inclusion in this directory does not constitute an endorsement by the publishers of the products or services of any business organization or individual listed herein.

If you are a compost supplier in the Mid-Atlantic who would like to be included or if you need to make changes to listed information, please contact Greg Evanylo at gevanylo@vt.edu or 540-231-9739.

Windrow compost.

Source: Nadine Davitt, Pennsylvania State University.

Mature, stabilized compost is as close to nature's organic matter as can be produced by humans.

Source: Cornell Cooperative Extension Service.

Building compost piles at Royal Oak Farm, Evington, Virginia.
